

Michael Jeltsch:
Protein Production and Purification Core Facility

<http://akta.jeltsch.org>

- Incubators & shakers for *E. coli*, insect cells and mammalian cells (up to 10 l)
- Automated protein purification with Äkta Explorer/Avant
- Protein shop (VEGF-A, VEGF-C, IL-3, ?)
- Tube labeling machine
- Full service (we do all, you pay), self-service (you “rent” the machine) and anything in between...

Coming up next...

- Antibody generation & production service (mono- & polyclonal, phage display-based, dynamic library)
- Isothermal calorimetry for true label-free interaction analysis
